

Trendway BIFMA Compliant Products

The new BIFMA Compliant registry is an industry-wide list of furniture products that meet the rigorous BIFMA safety and durability standards. The BIFMA Compliant mark supports specifiers searching for trusted products by providing confidence in recommendations and simplifying the verification process. The below list is the many Trendway products that have been certified as BIFMA Compliant.

Please be sure to check back as we continue to add products to the BIFMA compliance list as we complete additional testing and introduce new products.
