

New Systems Laminate Overhead Storage

A fresh look at storage.

Throw away the cookie cutter: Trendway's new Laminate Overhead storage introduces inventive possibilities for designing your work space. Styled in warm wood-grains and select neutral color options, it brings an inviting homelike feel to your office. Available on both Choices® and Contrada®.

Choose from frosted glass and laminate sliding doors, laminate fronts, cubbys or open shelves. The slow-close flip-up door option lets you shut the unit with a whisper, not a bang. For lower-height panels, half-height models offer handy storage space to keep clutter off your work surface.

Beautiful, well-crafted Laminate Overhead storage gives the finishing touch to your work space.
